

Maksutov-Cassegrain Telescopes

A. D100/F1400 Item No.VSTM01

AL tripod, easy mount, 8*21 viewfinder, 125" PL6.5/PL20,
1.25" focuser, 1.25" 45° prism diagonal

B. D152/F1900 Item No.VSTM02

Heavy Duty AL tripod, EQ8 mount, 8*50 viewfinder, 125"
PL6.5/PL20, 1.25" focuser, 2" 90° diagonal

Parabolic Newtonian Reflectors

A. D254/F1150 Item No.: VSTP02

2" focuser and EQ5 Mount with illuminated polarscope,
steel tripod, 8*50 viewfinder, 1.25" PL6.5/ PL20

B.D203/F900 Item No.: VSTP01

2" focuser and EQ5 Mount with illuminated polarscope,
steel tripod, 8*50 viewfinder, 1.25" PL6.5/ PL20

C. D152/F675 Item No.: VSTP03

2" focuser and EQ5 Mount with illuminated polarscope,
steel tripod, 8*50 viewfinder, 1.25" PL6.5/ PL20

Refractors	
	<p>D152/F760 Item No.:VSTR03 Multi coated, cylindrical steel tripod, EQ5 mount with illuminated polarscope, 8*50 viewfinder,1.25" PL6.5/PL20 eyepieces, 101.6mm focuser tube, 2" 90 degree diagonal, super achromatic optical system(air spaced quaternity), its color correction effect is improved by 30% at least compared to traditional cemented doublet</p>
	<p>D127/F635 Item NO.: VSTR06 Multi coated,cylindrical steel tripod,EQ5 equatorial mount with illuminated polarscope, 8*50 viewfinder,1.25" PL6.5/PL20 eyepieces, 76.2mm focuser tube 1.25" 90 degree diagonal super achromatic optical system(air spaced quaternity), its color correction effect is improved by 30% at least compared to traditional cemented doublet</p>
	<p>Item No: VSTR01 type A Diameter: 90mm Focal length: 500mm fully multi-coated air-spaced doublet objective Rotating 2" Crayford focuser All CNC machined and Bracket connecting hole to photography tripod and dovetail platform</p>
	<p>Item No: VSTR01 type B Diameter: 90mm Focal length: 500mm fully multi-coated air-spaced doublet objective 2" Rotating 10:1 Crayford focuser High glossy tube Heavy duty bracket and dovetail Anti-reflection lining</p>
	<p>Item No: VSTR02 Diameter: 80mm Focal length: 600mm fully multi-coated air-spaced doublet objective Precise Rack and Pinion focuser Heavy duty mounting ring set Anodized & Painted Anti-reflection lining</p>

ED refractor OTA	
	<p>VSTE01 80mm F-7 ED hand figured with traditional low polishing technology Fully multi coating doublet air spaced design,one element is ED glass Fully aluminum structure Collimation screws for each lens Two metal baffles Sliding dew shield to reduce glare Felt-lined mounting rings and dovetails plate Two speed 2" crayford focuser Blackened lens edges</p>
	<p>VSTE02 102mm-F-7 ED hand figured with traditional low polishing technology Fully multi coating Doublet air spaced design,one element is ED glass Fully aluminum structure Collimation screws for each lens Three metal baffles Sliding dew shield to reduce glare Felt-lined mounting rings and dovetails plate Two speed 2" crayford focuser Blackened lens edges</p>
	<p>VSTE03 80mm F6 Air spaced triplet with 1 element FCD-1 Hoya glass Full aluminum structure Rotating dual speed 2" Crayford focuser L-type Dovetail base Fully multi coating Blackened lens edges</p>
	<p>VSTE04 102mm F7 Air spaced triplet with 1 element FCD-1 Hoya glass Full aluminum structure Rotating dual speed 2" Crayford focuser Mounting ring set Fully multi coating Blackened lens edges</p>
	<p>VSTE05 127mm F7.5 Air spaced triplet with 1 element FCD-1 Hoya glass Full aluminum structure Rotating dual speed 2" Crayford focuser Mounting ring set Fully multi coating Blackened lens edges</p>

Connect Lens for Digital Video

	<p>Item No. VSBN02 Objective: 100mm fully multi-coated achromatic objective Focal length: 597mm Eyepiece: movable 1.25" 25x eyepiece Finderscope: 7*50 optional Prism: BAK4 Fork Mount Horizontal azimuth angle: 360° Elevation angle: 90° Exit pupil diameter: 3.6mm Eye relief: 14mm (25x eyepiece)</p>
